

IQ and Aptitude Test

1. Data interpretation - charts, graphs, tables, data sufficiency $6 \times 1 = 6$ Marks

Chapter 1 - Data interpretation

Sub-chapter 1 - Data Interpretation of Table Chart

Sub-chapter 2 - Data Interpretation of Bar Chart

Sub-chapter 3 - Data Interpretation of Line Chart

Chapter 1 - Data interpretation

• Tricks

1. If there are multiple diagram, They will be depend each other or they may be part of one another.
2. x चाही y को कति गुणा हुन्छ ? $\rightarrow \frac{x}{y}$
3. Be careful on unit/ Money unit.

Sub-chapter 1 - Data Interpretation of Table Chart

Table Chart - 1

Study the following table and answer the questions based on it.

Expenditures of a Company (in Lakh Rupees) per Annum Over the given Years.

Year	Item of Expenditure				
	Salary	Fuel and Transport	Bonus	Interest on Loans	Taxes
1998	288	98	3.00	23.4	83
1999	342	112	2.52	32.5	108
2000	324	101	3.84	41.6	74
2001	336	133	3.68	36.4	88
2002	420	142	3.96	49.4	98

- What is the average amount of interest per year which the company had to pay during this period? $\rightarrow$ D
A. Rs. 32.43 lakhs B. Rs. 33.72 lakhs C. Rs. 34.18 lakhs D. Rs. 36.66 lakhs
- The total amount of bonus paid by the company during the given period is approximately what percent of the total amount of salary paid during this period? $\rightarrow$ C
A. 0.1% B. 0.5% C. 1% D. 1.25%
- Total expenditure on all these items in 1998 was approximately what percent of the total expenditure in 2002? $\rightarrow$ C
A. 62% B. 66% C. 69% D. 71%
- The total expenditure of the company over these items during the year 2000 is? $\rightarrow$ A
A. Rs. 544.44 lakhs B. Rs. 501.11 lakhs
C. Rs. 446.46 lakhs D. Rs. 478.87 lakhs
- The ratio between the total expenditure on Taxes for all the years and the total expenditure on Fuel and Transport for all the years respectively is approximately? $\rightarrow$ B
A. 4:7 B. 10:13 C. 15:18 D. 5:8

Table Chart - 2

Study the following table and answer the questions.

Number of Candidates Appeared and Qualified in a Competitive Examination from Different States Over the Years.

State	Year									
	1997		1998		1999		2000		2001	
	App.	Qual.	App.	Qual.	App.	Qual.	App.	Qual.	App.	Qual.
M	5200	720	8500	980	7400	850	6800	775	9500	1125
N	7500	840	9200	1050	8450	920	9200	980	8800	1020
P	6400	780	8800	1020	7800	890	8750	1010	9750	1250
Q	8100	950	9500	1240	8700	980	9700	1200	8950	995
R	7800	870	7600	940	9800	1350	7600	945	7990	885

- Total number of candidates qualified from all the states together in 1997 is approximately what percentage of the total number of candidates qualified from all the states together in 1998? → C
A. 72% B. 77% C. 80% D. 83%
- What is the average candidates who appeared from State Q during the given years? → C
A. 8700 B. 8760 C. 8990 D. 8920
- In which of the given years the number of candidates appeared from State P has maximum percentage of qualified candidates? → D
A. 1997 B. 1998 C. 1999 D. 2001
- What is the percentage of candidates qualified from State N for all the years together, over the candidates appeared from State N during all the years together? → D
A. 12.36% B. 12.16% C. 11.47% D. 11.15%
- The percentage of total number of qualified candidates to the total number of appeared candidates among all the five states in 1999 is? → D
A. 11.49% B. 11.84% C. 12.21% D. 12.57%
- Combining the states P and Q together in 1998, what is the percentage of the candidates qualified to that of the candidate appeared? → C
A. 10.87% B. 11.49% C. 12.35% D. 12.54%

Table Chart - 3

The following table gives the percentage of marks obtained by seven students in six different subjects in an examination.

The Numbers in the Brackets give the Maximum Marks in Each Subject.

Student	Subject (Max. Marks)					
	Maths	Chemistry	Physics	Geography	History	Computer Science
	(150)	(130)	(120)	(100)	(60)	(40)
Ayush	90	50	90	60	70	80
Aman	100	80	80	40	80	70
Sajal	90	60	70	70	90	70
Rohit	80	65	80	80	60	60
Muskan	80	65	85	95	50	90
Tanvi	70	75	65	85	40	60
Tarun	65	35	50	77	80	80

- What are the average marks obtained by all the seven students in Physics? (rounded off to two digit after decimal) → B (Watch any one line for each students : tricky)
A. 77.26 B. 89.14 C. 91.37 D. 96.11
- The number of students who obtained 60% and above marks in all subjects is? → B
A. 1 B. 2 C. 3 D. None
- What was the aggregate of marks obtained by Sajal in all the six subjects? → D (Finding total mark by percentage)
A. 409 B. 419 C. 429 D. 449
- In which subject is the overall percentage the best? → A
A. Maths B. Chemistry C. Physics D. History
- What is the overall percentage of Tarun? → D
A. 52.5% B. 55% C. 60% D. 63%

Table Chart - 4

Study the following table and answer the questions.

Classification of 100 Students Based on the Marks Obtained by them in Physics and Chemistry in an Examination.

Subject	Marks out of 50				
	40 and above	30 and above	20 and above	10 and above	0 and above
Physics	9	32	80	92	100
Chemistry	4	21	66	81	100
Average (Aggregate)	7	27	73	87	100

- **What is the different between the number of students passed with 30 as cut-off marks in Chemistry and those passed with 30 as cut-off marks in aggregate? → D**
 A. 3 B. 4 C. 5 D. 6
 Required difference = (No. of students scoring 30 and above marks in Chemistry) - (Number of students scoring 30 and above marks in aggregate) = 27 - 21 = 6.
- **If at least 60% marks in Physics are required for pursuing higher studies in Physics, how many students will be eligible to pursue higher studies in Physics? → B**
 A. 27 B. 32 C. 34 D. 41
 (We have 60% of 50 = 30, Required number = No. of students scoring 30 and above marks in Physics = 32)
- **The percentage of number of students getting at least 60% marks in Chemistry over those getting at least 40% marks in aggregate, is approximately? → C**
 A. 21% B. 27% C. 29% D. 31%
 (Care on aggregate mark)
- **The number of students scoring less than 40% marks in aggregate is? → D**
 A. 13 B. 19 C. 20 D. 27
 (We have 40% of 50 = 20, Required number = Number of students scoring less than 20 marks in aggregate = 100 - Number of students scoring 20 and above marks in aggregate = 100 - 73 = 27)
- **If it is known that at least 23 students were eligible for a Symposium on Chemistry, then the minimum qualifying marks in Chemistry for eligibility to Symposium would lie in the range? → C**
 A. 40-45 B. 30-40 C. 20-30 D. Below 20
 (Since 66 students get 20 and above marks in Chemistry and out of these 21 students get 30 and above marks, therefore to select top 35 students in Chemistry, the qualifying marks should lie in the range 20-30.)

Table Chart - 5

Study the following table and answer the questions based on it.

Number of Candidates Appeared, Qualified and Selected in a Competitive Examination from Five States Delhi, H.P, U.P, Punjab and Haryana Over the Years 1994 to 1998

Year	Delhi			H.P			U.P			Punjab			Haryana		
	App	Qual	Sel	App	Qual	Sel	App	Qual	Sel	App	Qual	Sel	App	Qual	Sel
1997	8000	850	94	7800	810	82	7500	720	78	8200	680	85	6400	700	75
1998	4800	500	48	7500	800	65	5600	620	85	6800	600	70	7100	650	75
1999	7500	640	82	7400	560	70	4800	400	48	6500	525	65	5200	350	55
2000	9500	850	90	8800	920	86	7000	650	70	7800	720	84	6400	540	60
2001	9000	800	70	7200	850	75	8500	950	80	5700	485	60	4500	600	75

- **For which state the average number of candidates selected over the years is the maximum? → A**

- A. Delhi B. H.P C. U.P D. Punjab
- The percentage of candidates qualified from Punjab over those appeared from Punjab is highest in the year? → D
A. 1997 B. 1998 C. 1999 D. 2000
 - In the year 1997, which state had the lowest percentage of candidates selected over the candidates appeared? → D
A. Delhi B. H.P C. U.P D. Punjab
 - The number of candidates selected from Haryana during the period under review is approximately what percent of the number selected from Delhi during this period? → D
A. 79.5% B. 81% C. 84.5% D. 88.5%
 - The percentage of candidates selected from U.P over those qualified from U.P is highest in the year? → B
A. 1997 B. 1998 C. 1999 D. 2001
 - What is the approximate percentage of total number of candidates selected to the total number of candidates qualified for all five states together during the year 1999? → D
A. 10% B. 11% C. 12% D. 13%

Table Chart - 6

The following table gives the sales of batteries manufactured by a company over the years.

Number of Different Types of Batteries Sold by a Company Over the Years (Numbers in Thousands)

Year	Types of Batteries					
	4AH	7AH	32AH	35AH	55AH	Total
1992	75	144	114	102	108	543
1993	90	126	102	84	126	528
1994	96	114	75	105	135	525
1995	105	90	150	90	75	510
1996	90	75	135	75	90	465
1997	105	60	165	45	120	495
1998	115	85	160	100	145	605

- What was the approximate percentage increase in the sales of 55AH batteries in 1998 compared to that in 1992? → D
A. 28% B. 31% C. 33% D. 34%
- The total sales of all the seven years is the maximum for which battery? → C
A. 4AH B. 7AH C. 32AH D. 35AH
- What is the difference in the number of 35AH batteries sold in 1993 and 1997? → D
A. 24000 B. 28000 C. 35000 D. 39000
- The percentage of 4AH batteries sold to the total number of batteries sold was maximum in the year? → D
A. 1994 B. 1995 C. 1996 D. 1997
- In case of which battery there was a continuous decrease in sales from 1992 to 1997? → B
A. 4AH B. 7AH C. 32AH D. 35AH

Table Chart - 7

A school has four sections A, B, C, D of Class IX students.

The results of half yearly and annual examinations are shown in the table given below.

Result	No. of Students			
	Section A	Section B	Section C	Section D
Students failed in both Exams	28	23	17	27
Students failed in half-yearly but passed in Annual Exams	14	12	8	13
Students passed in half-yearly but failed in Annual Exams	6	17	9	15
Students passed in both Exams	64	55	46	76

- If the number of students passing an examination be considered a criteria for comparison of difficulty level of two examinations, which of the following statements is true in this context?
→ C
 - A. Half yearly examinations were more difficult.
 - B. Annual examinations were more difficult.
 - C. Both the examinations had almost the same difficulty level.
 - D. The two examinations cannot be compared for difficulty level.
- How many students are there in Class IX in the school? → D
 - A. 336
 - B. 189
 - C. 335
 - D. 430
- Which section has the maximum pass percentage in at least one of the two examinations? → D
 - A. A Section
 - B. B Section
 - C. C Section
 - D. D Section
- Which section has the maximum success rate in annual examination? → A
 - A. A Section
 - B. B Section
 - C. C Section
 - D. D Section
- Which section has the minimum failure rate in half yearly examination? → D
 - A. A section
 - B. B section
 - C. C section
 - D. D section

Table Chart - 8

The following table shows the number of new employees added to different categories of employees in a company and also the number of employees from these categories who left the company every year since the foundation of the Company in 1995.

Year	Managers		Technicians		Operators		Accountants		Peons	
	New	Left	New	Left	New	Left	New	Left	New	Left
1995	760	-	1200	-	880	-	1160	-	820	-
1996	280	120	272	120	256	104	200	100	184	96
1997	179	92	240	128	240	120	224	104	152	88
1998	148	88	236	96	208	100	248	96	196	80
1999	160	72	256	100	192	112	272	88	224	120
2000	193	96	288	112	248	144	260	92	200	104

- What is the difference between the total number of Technicians added to the Company and the total number of Accountants added to the Company during the years 1996 to 2000? → D
 - A. 128
 - B. 112
 - C. 96
 - D. 88
- What was the total number of Peons working in the Company in the year 1999? → B
 - A. 1312
 - B. 1192
 - C. 1088
 - D. 968
- For which of the following categories the percentage increase in the number of employees working in the Company from 1995 to 2000 was the maximum? → A
 - A. Managers
 - B. Technicians
 - C. Operators
 - D. Accountants
- What is the pooled average of the total number of employees of all categories in the year 1997? → B
 - A. 1325
 - B. 1195
 - C. 1265
 - D. 1235
- During the period between 1995 and 2000, the total number of Operators who left the Company is what percent of total number of Operators who joined the Company? → D

A. 19%

B. 21%

C. 27%

D. 29%

Table Chart - 9

The following table gives the percentage distribution of population of five states, P, Q, R, S and T on the basis of poverty line and also on the basis of sex.

State	Percentage of Population below the Poverty Line	Proportion of Males and Females	
		Below Poverty Line	Above Poverty Line
		M : F	M : F
P	35	5 : 6	6 : 7
Q	25	3 : 5	4 : 5
R	24	1 : 2	2 : 3
S	19	3 : 2	4 : 3
T	15	5 : 3	3 : 2

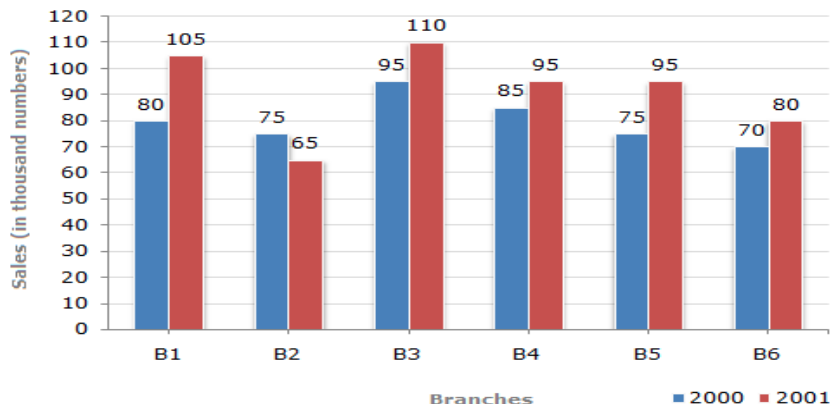

- If the male population above poverty line for State R is 1.9 million, then the total population of State R is? → D
A. 4.5 million B. 4.85 million C. 5.35 million D. 6.25 million
- What will be the number of females above the poverty line in the State S if it is known that the population of State S is 7 million? → B
A. 3 million B. 2.43 million C. 1.33 million D. 5.7 million
- What will be the male population above poverty line for State P if the female population below poverty line for State P is 2.1 million? → D
A. 2.1 million B. 2.3 million C. 2.7 million D. 3.3 million
- If the population of males below poverty line for State Q is 2.4 million and that for State T is 6 million, then the total populations of States Q and T are in the ratio? → B
A. 1:3 B. 2:5 C. 3:7 D. 4:9

Sub-chapter 2 - Data Interpretation of Bar Chart

Bar Chart -1

The bar graph given below shows the sales of books (in thousand number) from six branches of a publishing company during two consecutive years 2000 and 2001.

Sales of Books (in thousand numbers) from Six Branches - B1, B2, B3, B4, B5 and B6 of a publishing Company in 2000 and 2001.

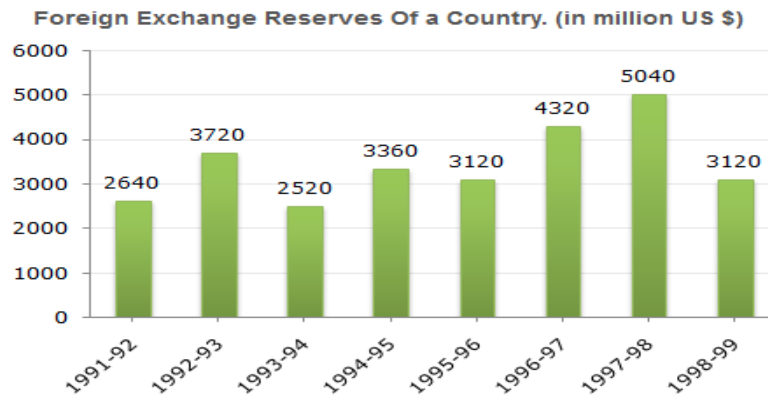

- What is the ratio of the total sales of branch B2 for both years to the total sales of branch B4 for both years? → D
A. 2:3 B. 3:5 C. 4:5 D. 7:9
- Total sales of branch B6 for both the years is what percent of the total sales of branches B3 for both the years? → C
A. 68.54% B. 71.11% C. 73.17% D. 75.55%
- What percent of the average sales of branches B1, B2 and B3 in 2001 is the average sales of branches B1, B3 and B6 in 2000? → D

- A. 75% B. 77.5% C. 82.5% D. 87.5%
- What is the average sales of all the branches (in thousand numbers) for the year 2000? → B
A. 73 B. 80 C. 83 D. 88
 - Total sales of branches B1, B3 and B5 together for both the years (in thousand numbers) is? → D
A. 250 B. 310 C. 435 D. 560

Bar Chart -2

The bar graph given below shows the foreign exchange reserves of a country (in million US \$) from 1991 - 1992 to 1998 - 1999.

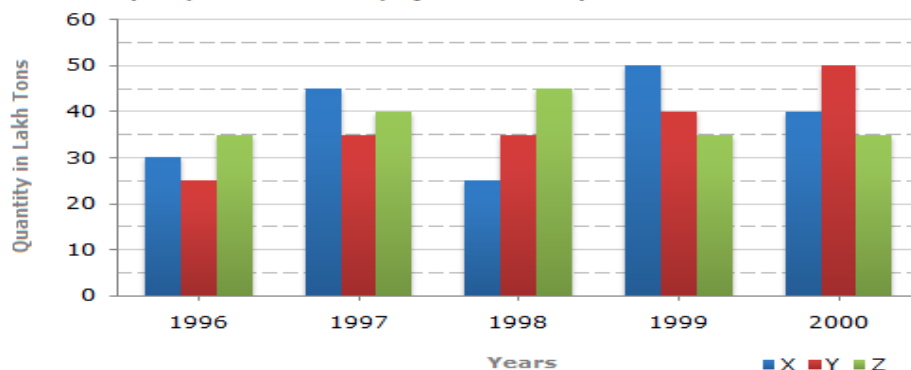

- The ratio of the number of years, in which the foreign exchange reserves are above the average reserves, to those in which the reserves are below the average reserves is? → C
A. 2:6 B. 3:4 C. 3:5 D. 4:4
- The foreign exchange reserves in 1997-98 was how many times that in 1994-95? → D
A. 0.7 B. 1.2 C. 1.4 D. 1.5
- For which year, the percent increase of foreign exchange reserves over the previous year, is the highest? → A
A. 1992-93 B. 1993-94 C. 1994-95 D. 1996-97
- The foreign exchange reserves in 1996-97 were approximately what percent of the average foreign exchange reserves over the period under review? → D
A. 95% B. 110% C. 115% D. 125%
- What was the percentage increase in the foreign exchange reserves in 1997-98 over 1993-94? → A
A. 100 B. 150 C. 200 D. 620

Bar Chart -3

The bar graph given below shows the data of the production of paper (in lakh tonnes) by three different companies X, Y and Z over the years.

Production of Paper (in lakh tonnes) by Three Companies X, Y and Z over the Years.

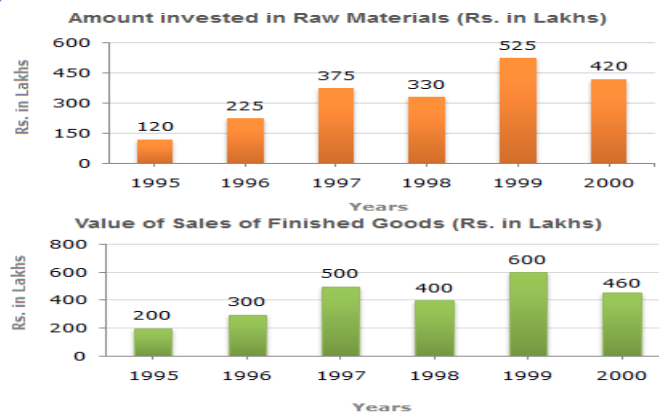

- For which of the following years, the percentage rise/fall in production from the previous year is the maximum for Company Y? → A
A. 1997 B. 1998 C. 1999 D. 2000

- What is the ratio of the average production of Company X in the period 1998-2000 to the average production of Company Y in the same period? → C
A. 1:1 B. 15:17 C. 23:25 D. 27:29
- The average production for five years was maximum for which company? → D
A. X B. Y C. Z D. X and Z both
- In which year was the percentage of production of Company Z to the production of Company Y the maximum? → A
A. 1996 B. 1997 C. 1998 D. 1999
- What is the percentage increase in the production of Company Y from 1996 to 1999? → A
A. 30% B. 45% C. 50% D. 60%
- What is the difference between the production of Company Z in 1998 and Company Y in 1996? → D
A. 2,00,000 tons B. 20,00,000 tons C. 20,000 tons D. 2,00,00,000 tons

Bar Chart -4

Out of the two bar graphs provided below, one shows the amounts (in Lakh Rs.) invested by a Company in purchasing raw materials over the years and the other shows the values (in Lakh Rs.) of finished goods sold by the Company over the years.

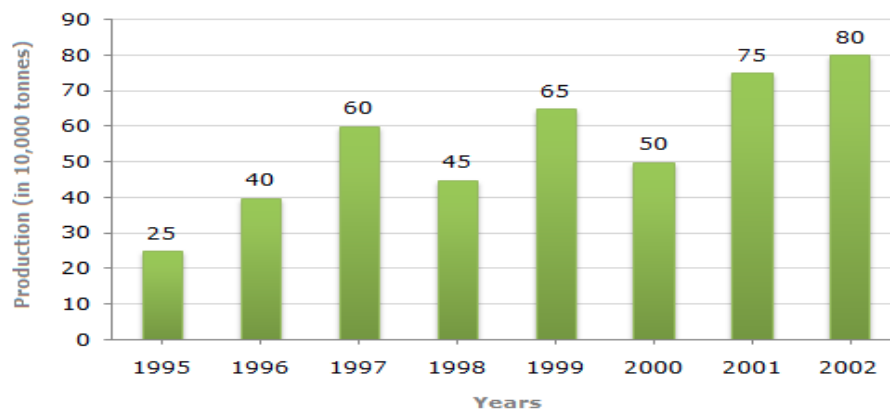

- The maximum difference between the amount invested in Raw materials and value of sales of finished goods was during the year? → C
A. 1995 B. 1996 C. 1997 D. 1998
- The value of sales of finished goods in 1999 was approximately what percent of the sum of amount invested in Raw materials in the years 1997, 1998 and 1999? → D
A. 33% B. 37% C. 45% D. 49%
- What was the difference between the average amount invested in Raw materials during the given period and the average value of sales of finished goods during this period? → D
A. Rs. 62.5 lakhs B. Rs. 68.5 lakhs
C. Rs. 71.5 lakhs D. Rs. 77.5 lakhs
- In which year, the percentage change (compared to the previous year) in the investment on Raw materials is same as that in the value of sales of finished goods? → B
A. 1996 B. 1997 C. 1998 D. 1999
- In which year, there has been a maximum percentage increase in the amount invested in Raw materials as compared to the previous year? → A
A. 1996 B. 1997 C. 1998 D. 1999

Bar Chart -5

Study the bar chart and answer the question based on it.

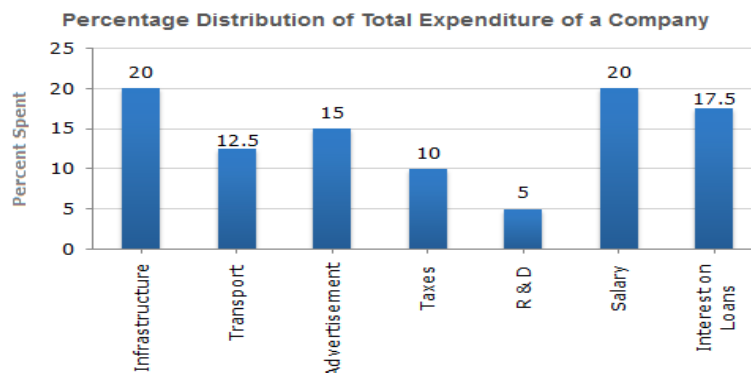

Production of Fertilizers by a Company (in 1000 tonnes) Over the Years

- What was the percentage decline in the production of fertilizers from 1997 to 1998? → C
A. $33\frac{1}{3}\%$ B. 20% C. 25% D. 21%
- The average production of 1996 and 1997 was exactly equal to the average production of which of the following pairs of years? → D
A. 2000 and 2001 B. 1999 and 2000
C. 1998 and 2000 D. 1995 and 2001
- What was the percentage increase in production of fertilizers in 2002 compared to that in 1995? → C
A. 320% B. 300% C. 220% D. 200%
- In which year was the percentage increase in production as compared to the previous year the maximum? → D
A. 2002 B. 2001 C. 1997 D. 1996
- In how many of the given years was the production of fertilizers more than the average production of the given years? → D
A. 1 B. 2 C. 3 D. 4

Bar Chart -6

The bar graph given below shows the percentage distribution of the total expenditures of a company under various expense heads during 2003.

- The total amount of expenditures of the company is how many times of expenditure on research and development? → B
A. 27 B. 20 C. 18 D. 8
- If the expenditure on advertisement is 2.10 crores then the difference between the expenditure on transport and taxes is? → D
A. Rs. 1.25 crores B. Rs. 95 lakhs
C. Rs. 65 lakhs D. Rs. 35 lakhs
- What is the ratio of the total expenditure on infrastructure and transport to the total expenditure on taxes and interest on loans? → D

- A. 5:4 B. 8:7 C. 9:7 D. 13:11
- If the interest on loans amounted to Rs. 2.45 crores then the total amount of expenditure on advertisement, taxes and research and development is? → C

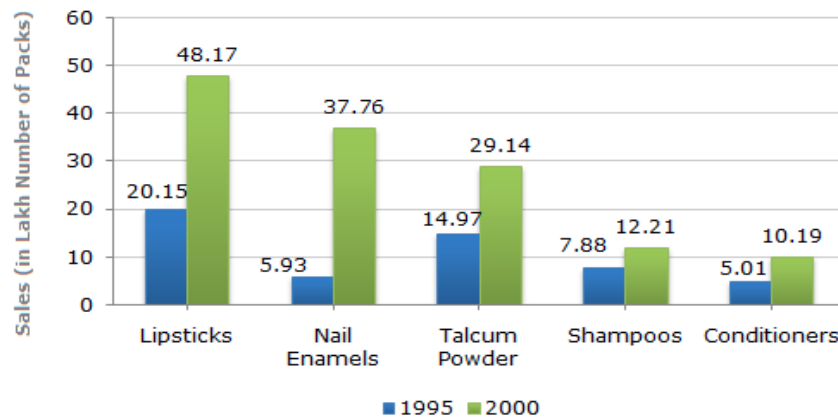

A. Rs. 7 crores B. Rs. 5.4 crores
C. Rs. 4.2 crores D. Rs. 3 crores
 - The expenditure on the interest on loans is by what percent more than the expenditure on transport? → D

A. 5% B. 10% C. 20% D. 40%

Bar Chart -7

A cosmetic company provides five different products. The sales of these five products (in lakh number of packs) during 1995 and 2000 are shown in the following bar graph.

Sales (in lakh number of packs) of five different products of Cosmetic Company during 1995 and 2000

- The sales of lipsticks in 2000 was by what percent more than the sales of nail enamels in 2000? (rounded off to nearest integer) → C

A. 33% B. 31% C. 28% D. 22%
- During the period 1995-2000, the minimum rate of increase in sales is in the case of? → A

A. Shampoos B. Nail enamels
C. Talcum powders D. Lipsticks
- What is the approximate ratio of the sales of nail enamels in 2000 to the sales of Talcum powders in 1995? → B

A. 7:2 B. 5:2 C. 4:3 D. 2:1
- The sales have increase by nearly 55% from 1995 to 2000 in the case of? → D

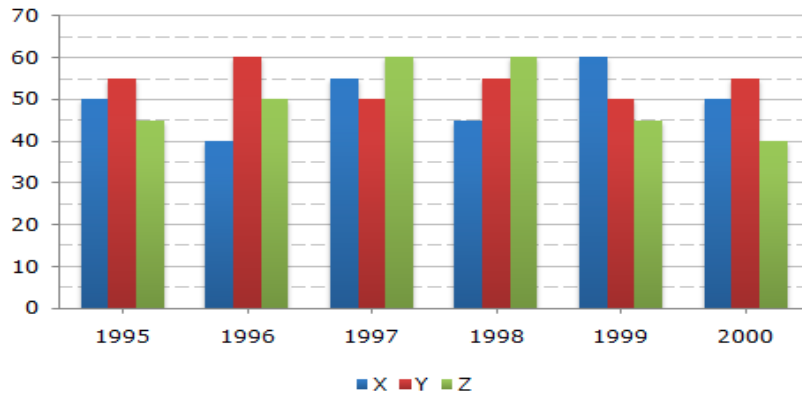

A. Lipsticks B. Nail enamels
C. Talcum powders D. Shampoos
- The sales of conditioners in 1995 was by what percent less than the sales of shampoos in 1995? (rounded off to nearest integer) → B

A. 57% B. 36% C. 29% D. 25%

Bar Chart -8

A soft drink company prepares drinks of three different flavours - X, Y and Z. The production of three flavours over a period of six years has been expressed in the bar graph provided below.

Production of Three Different Flavours X, Y and Z by a Company over the years (in lakh bottles)

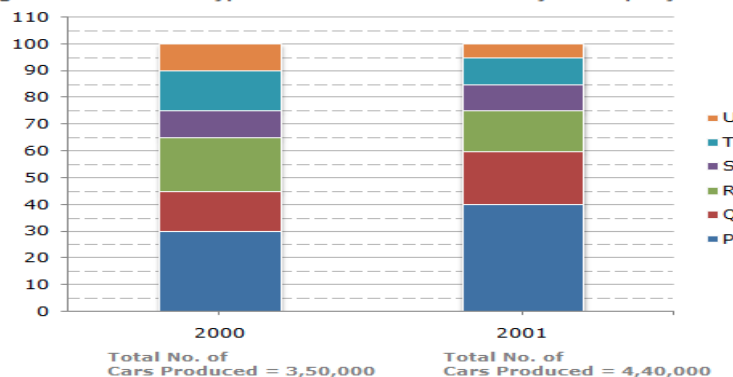

- The total production of flavour Z in 1997 and 1998 is what percentage of the total production of flavour X in 1995 and 1996? → D
 A. 96.67% B. 102.25% C. 115.57% D. 133.33%
- For which flavour was the average annual production maximum in the given period? → B
 A. X only B. Y only C. Z only D. X and Y
- What is the difference between the average production of flavour X in 1995, 1996 and 1997 and the average production of flavour Y in 1998, 1999 and 2000? → D
 A. 50,000 bottles B. 80,000 bottles
 C. 2,40,000 bottles D. 5,00,000 bottles
- What was the approximate decline in the production of flavour Z in 2000 as compared to the production in 1998? → C
 A. 50% B. 42% C. 33% D. 25%
- For which of the following years the percentage of rise/fall in production from the previous year is the maximum for the flavour Y? → B
 A. 1996 B. 1997 C. 1998 D. 1999

Bar Chart -9

The bar graph given below shows the percentage distribution of the total production of a car manufacturing company into various models over two years.

Percentage of Six different types of Cars manufactured by a Company over Two Years

- What was the difference in the number of Q type cars produced in 2000 and that produced in 2001? → A
 A. 35,500 B. 27,000 C. 22,500 D. 17,500
- Total number of cars of models P, Q and T manufactured in 2000 is? → C
 A. 2,45,000 B. 2,27,500 C. 2,10,000 D. 1,92,500
- If the percentage production of P type cars in 2001 was the same as that in 2000, then the number of P type cars produced in 2001 would have been? → B
 A. 1,40,000 B. 1,32,000 C. 1,17,000 D. 1,05,000

- If 85% of the S type cars produced in each year were sold by the company, how many S type cars remain unsold? → C
A. 7650 B. 9350 C. 11,850 D. 12,250
- For which model the percentage rise/fall in production from 2000 to 2001 was minimum? → B
A. Q B. R C. S D. T

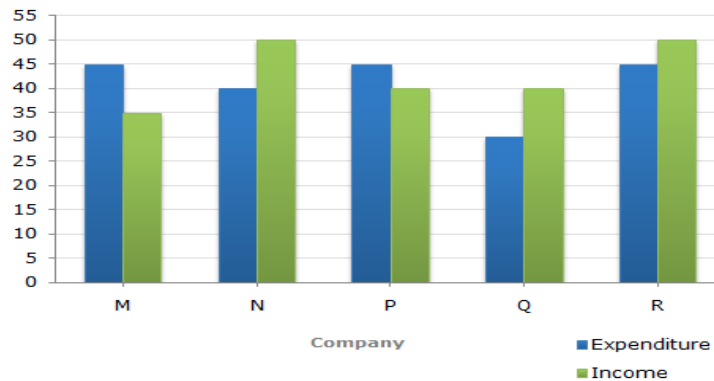

Bar Chart -10

The following bar graph shows the Income and Expenditures (in million US \$) of five companies in the year 2001.

The percent profit or loss of a company is given by

$$\% \text{ Profit/Loss} = \frac{\text{Income} - \text{Expenditure}}{\text{Expenditure}} \times 100$$

Income and Expenditure (in million US \$) of five companies in the year 2001.

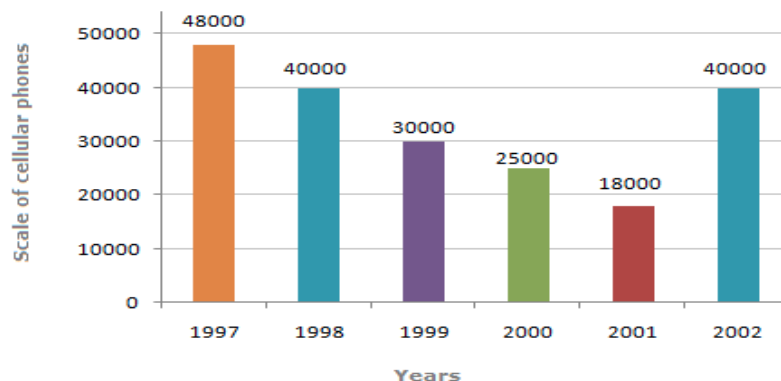

- The companies M and N together had a percentage of profit/loss of? → D
A. 12% loss B. 10% loss C. 10% profit D. There was no loss or profit
- In 2001, what was the approximate percentage of profit/loss of all the five Companies taken together? → A
A. 5% profit B. 6.5% profit C. 4% loss D. 7% loss
- Which company earned the maximum percentage profit in the year 2001? → D
A. M B. N C. P D. Q
- For Company R, if the expenditure had increased by 20% in year 2001 from year 2000 and the company had earned profit of 10% in 2000, what was the Company's income in 2000 (in million US \$)? → D
A. 35.75 B. 37.25 C. 38.5 D. 41.25
- If the income of Company Q in 2001 was 10% more than its income in 2000 and the Company had earned a profit of 20% in 2000, then its expenditure in 2000 (in million US \$) was? → B
A. 28.28 B. 30.30 C. 32.32 D. 34.34

Bar Chart -11

Study the bar chart and answer the questions.

Sale of Cellular Phones

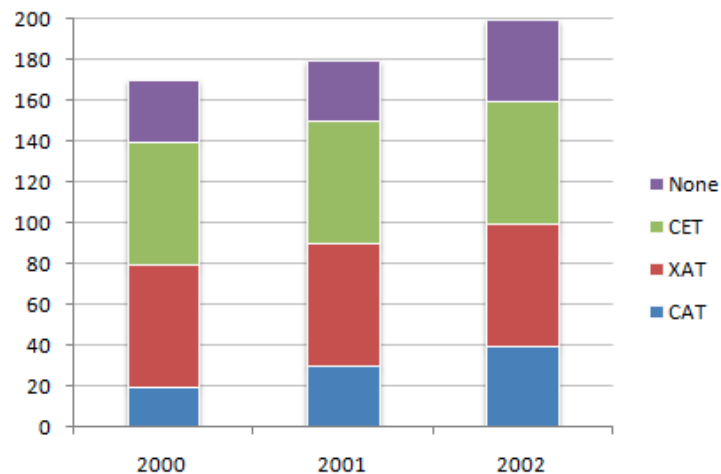

- The difference in the sales of cellular phones for the years 1997 and 1999 is ? → D
A. 500 units B. 1,000 units C. 5,000 units D. 18,000 units
- The two years between which the rate of change of cellular phones is minimum are ? → C
A. 1997 and 1998 B. 1999 and 2000

- Which of the countries listed below accounts for the highest GDP during the half decade 2001 to 2005 ? → A
A. Russia B. China C. India D. UAE
- Out of every Rs. 10,000 spent during the decade 2001 - 2010 approximately how much was the GDP of Russia during the half decade 2001 - 2005 ? →
A. Rs. 700 B. Rs. 1,400 C. Rs. 2,800 D. None of these

Bar Chart -14

The following chart represents the number of students who passed the CAT exam or the XAT exam or the CET exam or None of these exams. (Assume that there are no students who passed more than one exam.)

Number of students who qualified CAT/XAT/CET Exams

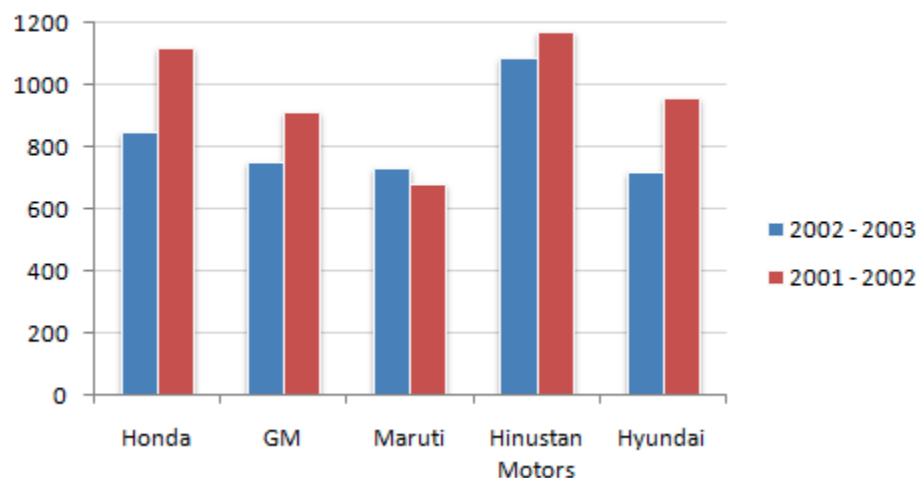

- Which year showed the best result in MBA entrance exams (in terms of percentage of students who cleared) ? → B
A. 2000 B. 2001 C. 2002 D. Cannot be determined
- What was the percentage of students who succeeded in at least one of three exams in 2000 ? → C
A. 82.4 % B. 82.8 % C. 82.35 % D. 83.3 %
- What is the percentage increase in the number of students in 2002 over 2000 ? → B
A. 30 % B. 17.64 % C. 117.6 % D. 85 %
- What is the percentage of students who cleared CAT in 2000 ? → D
A. 19.56 % B. 12.65 % C. 14.28 % D. 11.76 %

Bar Chart -15

Study the following bar chart and answer the questions carefully.

Sales Turnover of 5 Companies (in Rs. crores)

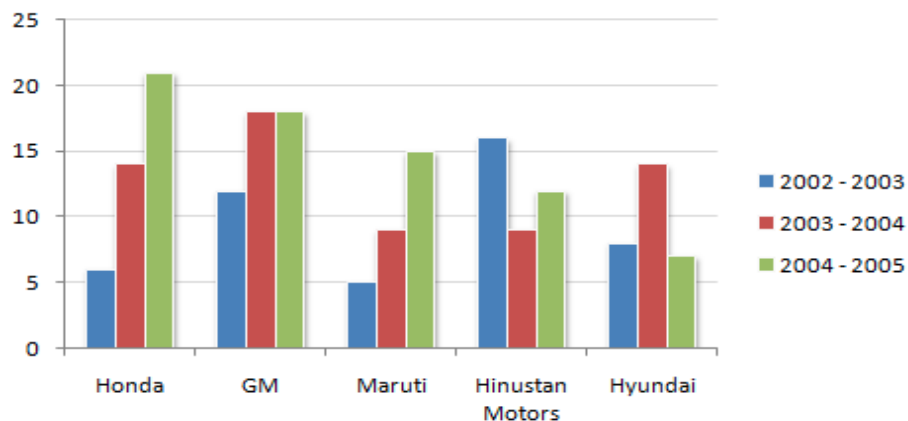

- What is the percentage change in the overall sales turnover of the five companies together between 2001 - 2002 and 2002 - 2003 ? → B
A. 17.21 % B. 14.68 % C. 12.67 % D. 21.24 %
- What is the absolute change in overall sales turnover of the five companies together between 2001 - 2002 and 2002 - 2003 ? → A
A. 712.43 B. 142.48 C. 683.53 D. None of these
- Which of the companies shows the maximum percentage difference in sales turnover between the two years ? → C
A. Honda B. GM C. Hyundai D. Maruti
- What should have been the sales turnover of GM in 2002 - 2003 to have shown an excess of the same quantum over 2001 - 2002 as shown by the sales turnover of Maruti ? → D
A. 953.76 B. 963.76 C. 952.76 D. 962.76
- What is the approximate difference between the average sales turnover of all the companies put together between the years 2001 - 2002 and 2002 - 2003 ? → B
A. 133.45 B. 142.48 C. 117.6 D. None of these

Bar Chart -16

The following chart shows the production of cars in thousands.

Production of Cars for 2002 - 2005 period from the Selected Manufacturers

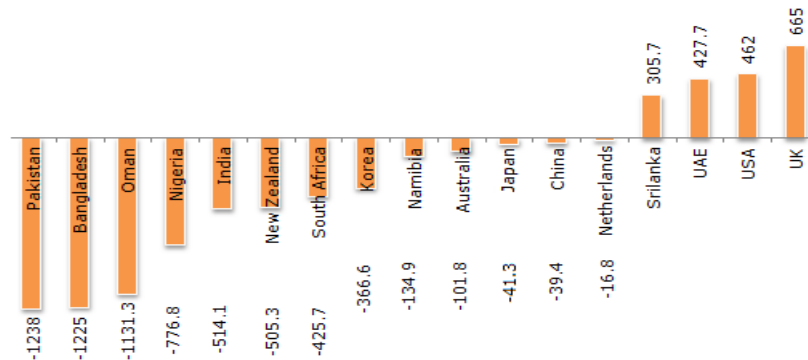

- How many companies have shown production below their average production in 2002 - 2003, but have showed above the average production in 2003 - 2004 ? → C
A. One B. Two C. Three D. Four
- The ratio of Hindustan Motors production in 2003 - 2004 to Honda's production in 2002 - 2003 is ? → B
A. 0.66 B. 1.5 C. 2 D. None of these
- For how many companies has there been no decrease in production in any year from the previous year ? → C
A. One B. Two C. Three D. Four

Bar Chart -17

The total of the first three deficit countries (in Rs. crores) = 3594.3. The total of next five deficit countries (in Rs. crores) = 2588.5. The total of the last five deficit countries (in Rs. crores) = 334.2.

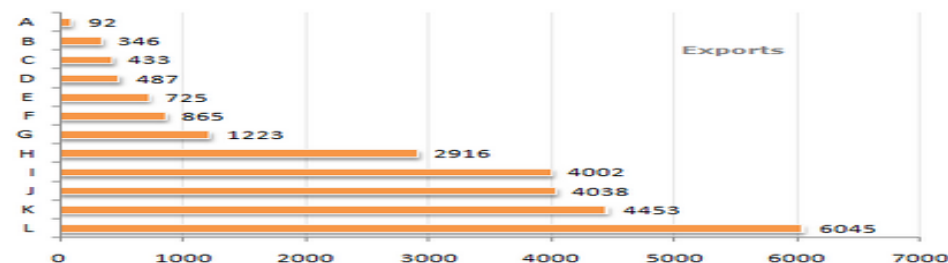

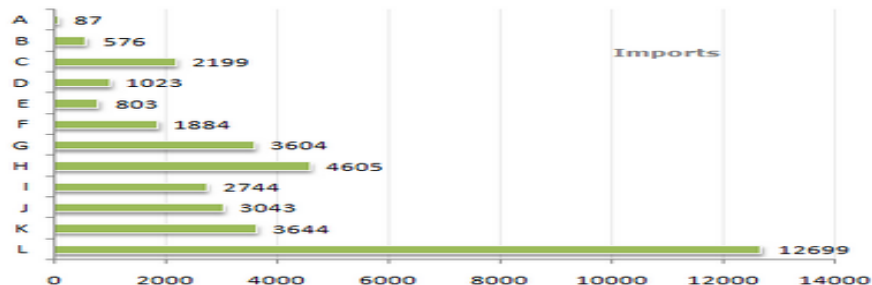

Cumulative Trade Deficit/Surplus of Countries for the Year 2006 - 2007 (All figures in Rs. Crores).

- The ratio between the difference between the highest and the lowest of the surplus countries to the difference between Bangladesh and Oman is ? → D
A. 3.44 B. 2.96 C. 4.5 D. 3.83
- The average of the total deficit of the middle five deficit is closest to the deficit of which country ? → A
A. Korea B. South Africa C. UAE D. None of these
- The state whose surplus is nearly equal to the average of the four surplus countries is → C
A. Sri Lanka B. UAE C. USA D. UK
- The ratio of the deficit of the first five deficit countries to the overall deficit of all the deficit countries is nearly equal to ? → B
A. 0.72 B. 0.75 C. 0.80 D. 0.85
- The net total deficit/surplus is equal to ? → B
A. 4656.6 surplus B. 4656.6 deficit C. 3836.5 deficit D. None of these

Bar Chart -18

Foreign Trade (Imports and Exports) by countries for the year (1993 - 1994)

- The ratio of the maximum exports to the minimum imports was closest to ? → B
A. 64 B. 69 C. 74 D. 79
- How many countries exhibited a trade surplus ? → B
A. 5 B. 4 C. 3 D. 6
- The total trade deficit/surplus for all the countries put together was ? → B
A. 11286 surplus B. 11286 deficit C. 10286 deficit D. None of these
- The highest trade deficit was shown by which country ? → D
A. C B. G C. H D. L

- The ratio of Exports to Imports was highest for which country ? → B

A. A

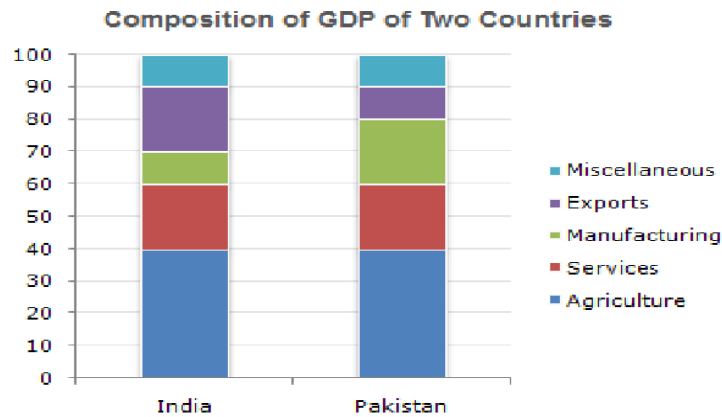

B. I

C. J

D. K

Bar Chart -19

The following bar chart shows the composition of the GDP two countries (India and Pakistan).

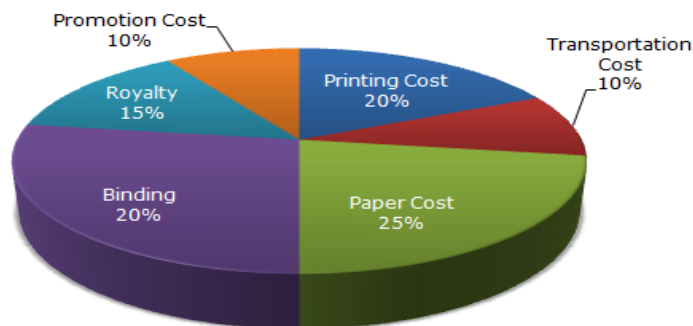

- If the total GDP of Pakistan is Rs. 10,000 crore, then a GDP accounted for by Manufacturing is ? → C
 - A. Rs.200 crore
 - B. Rs.600 crore
 - C. Rs.2,000 crore
 - D. Rs.6,000 crore
- What fraction of India's GDP is accounted for by Services ? → B
 - A. (6/33)th
 - B. (1/5)th
 - C. (2/3)rd
 - D. None of these
- If the total GDP of India is Rs.30,000 crores, then the GDP accounted for by Agriculture, Services and Miscellaneous is ? → C
 - A. Rs.18,500 crore
 - B. Rs.18,000 crore
 - C. Rs.21,000 crore
 - D. Rs.15,000 crore
- Which country accounts for higher earning out of Services and Miscellaneous together ? → D
 - A. India
 - B. Pakistan
 - C. Both spend equal amounts
 - D. Cannot be determined
- If the total GDP is the same for both the countries, then what percentage is Pakistan's income through agriculture over India's income through Services ? → A
 - A. 100 %
 - B. 200 %
 - C. 133.33 %
 - D. None of these

Sub-chapter 2 - Data Interpretation of Pie Chart

Pie Chart -1

The following pie-chart shows the percentage distribution of the expenditure incurred in publishing a book. Study the pie-chart and the answer the questions based on it.

Various Expenditures (in percentage) Incurred in Publishing a Book

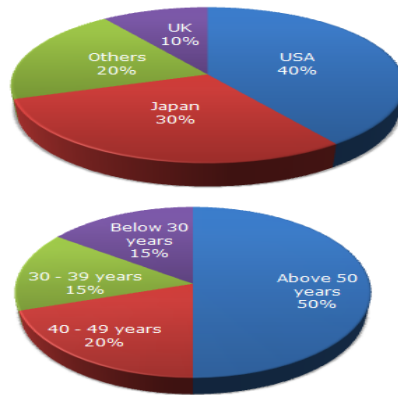

- If for a certain quantity of books, the publisher has to pay Rs. 30,600 as printing cost, then what will be amount of royalty to be paid for these books? → C
 - A. Rs. 19,450
 - B. Rs. 21,200
 - C. Rs. 22,950
 - D. Rs. 26,150
- What is the central angle of the sector corresponding to the expenditure incurred on Royalty? → C

- A. 15° B. 24° C. 54° D. 48°
- The price of the book is marked 20% above the C.P. If the marked price of the book is Rs. 180, then what is the cost of the paper used in a single copy of the book? → B
A. Rs. 36 B. Rs. 37.50 C. Rs. 42 D. Rs. 44.25
 - If 5500 copies are published and the transportation cost on them amounts to Rs. 82500, then what should be the selling price of the book so that the publisher can earn a profit of 25%? → A
A. Rs. 187.50 B. Rs. 191.50 C. Rs. 175 D. Rs. 180
 - Royalty on the book is less than the printing cost by → D
A. 5% B. $33\frac{1}{5}\%$ C. 20% D. 25%
 - If the difference between the two expenditures are represented by 18° in the pie-chart, then these expenditures possibly are → D
A. Binding Cost and Promotion Cost B. Paper Cost and Royalty
C. Binding Cost and Printing Cost D. Paper Cost and Printing Cost
 - For an edition of 12,500 copies, the amount of Royalty paid by the publisher is Rs. 2,81,250. What should be the selling price of the book if the publisher desires a profit of 5%? → B
A. Rs. 152.50 B. Rs. 157.50 C. Rs. 162.50 D. Rs. 167.50
 - If for an edition of the book, the cost of paper is Rs. 56250, then find the promotion cost for this edition. → B
A. Rs. 20,000 B. Rs. 22,500 C. Rs. 25,500 D. Rs. 28,125
 - Which two expenditures together have central angle of 108° ? → A
A. Binding Cost and Transportation Cost B. Printing Cost and Paper Cost
C. Royalty and Promotion Cost D. Binding Cost and Paper Cost

Pie Chart -2

The following pie charts exhibit the distribution of the overseas tourist traffic from India. The two charts shows the tourist distribution by country and the age profiles of the tourists respectively.

Distribution of Overseas Tourist Traffic from India.

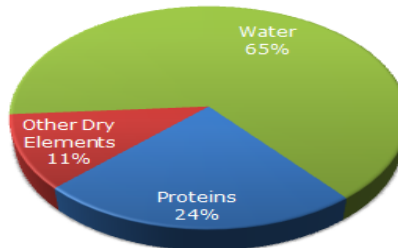

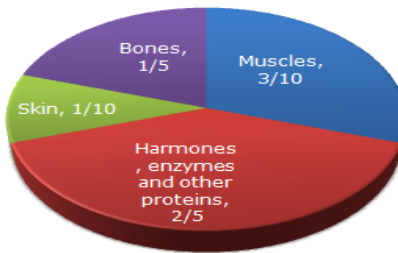

- What percentage of Indian tourist went to either USA or UK ? → B
A. 40 % B. 50 % C. 60 % D. 70 %
- The ratio of the number of Indian tourists that went to USA to the number of Indian tourists who were below 30 years of age is ? → B
A. 2:1 B. 8:3 C. 3:8 D. Cannot be determined
- If amongst other countries, Switzerland accounted for 25% of the Indian tourist traffic, and it is known from official Swiss records that a total of 25 lakh Indian tourists had gone to Switzerland during the year, then find the number of 30-39 year old Indian tourists who went abroad in that year ? → D
A. 18.75 lakh B. 25 lakh C. 50 lakh D. 75 lakh

Pie Chart -3

The following pie chart give the information about the distribution of weight in the human body according to different kinds of components. Study the pie charts and answer the question.

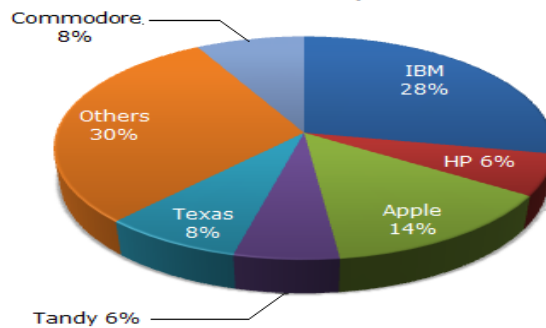

Distribution of Weight in Human Body

- **What percentage of proteins of the human body is equivalent to the weight of its skin ? → A**
 A. 41.66 % B. 43.33 % C. 44.44 % D. Cannot be determined
- **How much of the human body is neither made of bones or skin ? → D**
 A. 40 % B. 50 % C. 60 % D. 70 %
- **What is the ratio of the distribution of proteins in the muscles to that of the distribution of proteins in the bones ? →**
 A. 2:1 B. 2:3 C. 3:2 D. Cannot be determined

Pie Chart -4

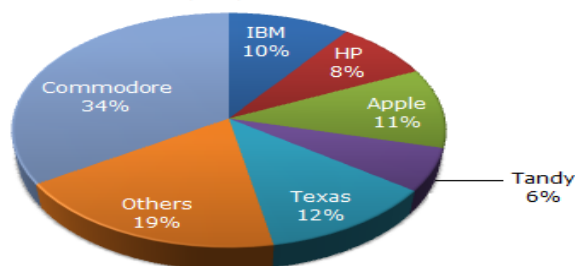

The pie chart shows the distribution of New York market share by **value** of different computer companies in 2005.

The pie chart shows the distribution of New York market share by **volume** of different computer companies in 2005.

Number of units sold in 2005 in New York = 1,500

Value of units sold in 2005 in New York = US \$1,650,000.

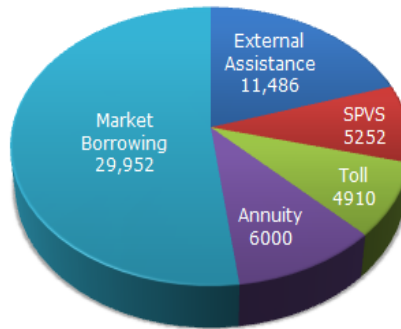

- **For the year 2005, which company has realised the lowest average unit sales price for a PC ? → D**
 A. Commodore B. IBM C. Tandy D. Cannot be determined
- **Over the period 2005-2006, if sales (value-wise) of IBM PC's increased by 50% and of Apple by 15% assuming that PC sales of all other computer companies remained the same, by what percentage (approximately) would the PC sales in New York (value-wise) increase over the same period ? → A**

- A. 16.1 % B. 18 % C. 14 % D. None of these
- In 2005, the average unit sale price of an IBM PC was approximately (in US\$) → D
- A. 3180 B. 2800 C. 393 D. 3080

Pie Chart -5

The following pie-chart shows the sources of funds to be collected by the National Highways Authority of India (NHAI) for its Phase II projects. Study the pie-chart and answers the question that follow.

Sources of funds to be arranged by NHAI for Phase II projects (in crores Rs.)

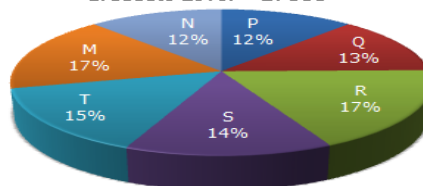

- Near about 20% of the funds are to be arranged through: → B
- A. SPVS B. External Assistance C. Annuity D. Market Borrowing
- If NHAI could receive a total of Rs. 9695 crores as External Assistance, by what percent (approximately) should it increase the Market Borrowing to arrange for the shortage of funds? → C
- A. 4.5% B. 7.5% C. 6% D. 8%
- If the toll is to be collected through an outsourced agency by allowing a maximum 10% commission, how much amount should be permitted to be collected by the outsourced agency, so that the project is supported with Rs. 4910 crores? → C
- A. Rs. 6213 crores B. Rs. 5827 crores C. Rs. 5401 crores D. Rs. 5316 crores
- The central angle corresponding to Market Borrowing is → C
- A. 52° B. 137.8° C. 187.2° D. 192.4°
- The approximate ratio of the funds to be arranged through Toll and that through Market Borrowing is → B
- A. 2 : 9 B. 1 : 6 C. 3 : 11 D. 2 : 5

Pie Chart -6

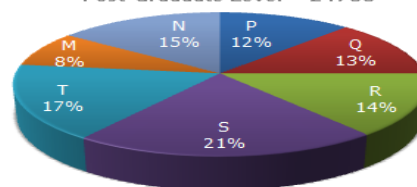

The following pie-charts show the distribution of students of graduate and post-graduate levels in seven different institutes in a town.

Distribution of students at graduate and post-graduate levels in seven institutes:

Total Number of Students of Graduate Level = 27300

Total Number of Students of Post-Graduate Level = 24700

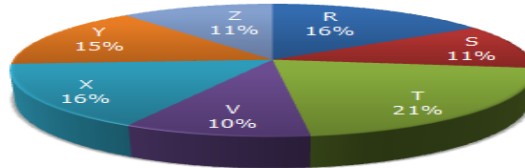

- What is the total number of graduate and post-graduate level students in institute R? → D
- A. 8320 B. 7916 C. 9116 D. 8099
- What is the ratio between the number of students studying at post-graduate and graduate levels respectively from institute S? → D

- A. 14 : 19 B. 19 : 21 C. 17 : 21 D. 19 : 14
- How many students of institutes of M and S are studying at graduate level? → B
A. 7516 B. 8463 C. 9127 D. 9404
 - What is the ratio between the number of students studying at post-graduate level from institutes S and the number of students studying at graduate level from institute Q? → D
A. 13 : 19 B. 21 : 13 C. 13 : 8 D. 19 : 13
 - Total number of students studying at post-graduate level from institutes N and P is → C
A. 5601 B. 5944 C. 6669 D. 8372

Pie Chart -7

Study the following pie-chart and the table and answer the questions based on them.
Proportion of Population of Seven Villages in 1997

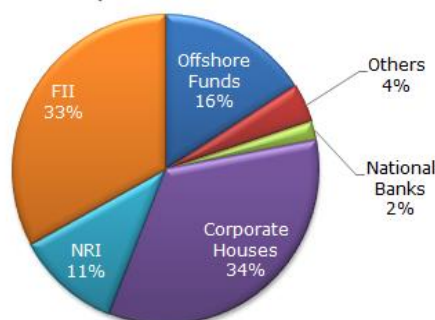

Village	% Population Below Poverty Line
X	38
Y	52
Z	42
R	51
S	49
T	46
V	58

- If the population of village R in 1997 is 32000, then what will be the population of village Y below poverty line in that year? → B
A. 14100 B. 15600 C. 16500 D. 17000
- The ratio of population of village T below poverty line to that of village Z below poverty line in 1997 is: → C
A. 11 : 23 B. 13 : 11 C. 23 : 11 D. 11 : 13
- Find the population of village S if the population of village X below poverty line in 1997 is 12160 → C
A. 18500 B. 20500 C. 22000 D. 26000
- If in 1998, the population of villages Y and V increase by 10% each and the percentage of population below poverty line remains unchanged for all the villages, then find the population of village V below poverty line in 1998, given that the population of village Y in 1997 was 30000. → B
A. 11250 B. 12760 C. 13140 D. 13780

Pie Chart -8

The following pie chart shows the amount of subscriptions generated for India Bonds from different categories of investors.

Subscriptions Generated for India Bonds

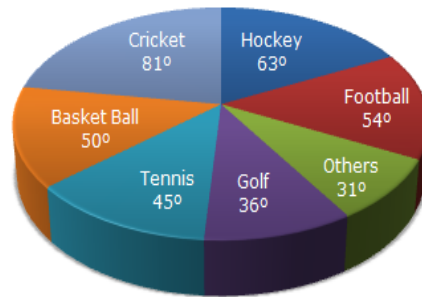

- In the corporate sector, approximately how many degrees should be there in the central angle ? → C
A. 120 B. 121 C. 122 D. 123

- If the investment by NRI's are Rs 4,000 crore, then the investments by corporate houses and FII's together is: → B
A. 24,000 crore B. 24,363 crore C. 25,423 crore D. 25,643 crore
- What percentage of the total investment is coming from FII's and NRI's ? → C
A. 33 % B. 11 % C. 44 % D. 22 %
- If the total investment other than by FII and corporate houses is Rs 335,000 crore, then the investment by NRI's and Offshore funds will be (approximately) ? → A
A. 274,100 B. 285,600 C. 293,000 D. Cannot be determined
- If the total investment flows from FII's were to be doubled in the next year and the investment flows from all other sources had remained constant at their existing levels for this year, then what would be the proportion of FII investment in the total investment into India Bonds next year (in US \$ millions) ? → B
A. 40 % B. 50 % C. 60 % D. 70 %
- What is the approximate ratio of investment flows into India Bonds from NRI's to corporate houses ? → B
A. 1:4 B. 1:3 C. 3:1 D. Cannot be determined

Pie Chart -9

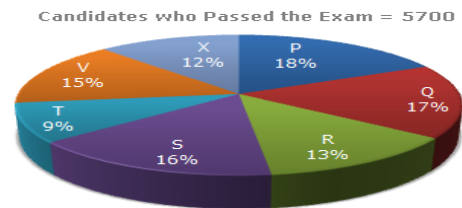

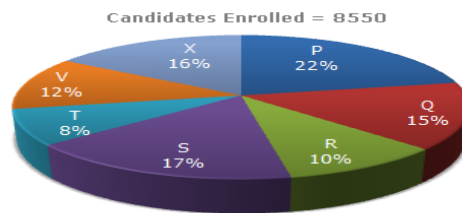

The circle-graph given here shows the spendings of a country on various sports during a particular year. Study the graph carefully and answer the questions given below it.

- What percent of total spending is spent on Tennis? → A
A. $12\frac{1}{2}$ B. $22\frac{1}{2}$ C. 25% D. 45%
- How much percent more is spent on Hockey than that on Golf? → D
A. 27% B. 35% C. 37.5% D. 75%
- If the total amount spent on sports during the year be Rs. 1,80,00,000 , the amount spent on Basketball exceeds on Tennis by: → A
A. Rs. 2,50,000 B. Rs. 3,60,000 C. Rs. 3,75,000 D. Rs. 4,10,000
- How much percent less is spent on Football than that on Cricket? → C
A. $22\frac{2}{9}$ % B. 27 % C. $33\frac{1}{3}$ D. $37\frac{1}{7}$
- If the total amount spent on sports during the year was Rs. 2 crores, the amount spent on Cricket and Hockey together was: → B
A. Rs. 8,00,000 B. Rs. 80,00,000 C. Rs. 1,20,00,000 D. Rs. 1,60,00,000

Pie Chart -10

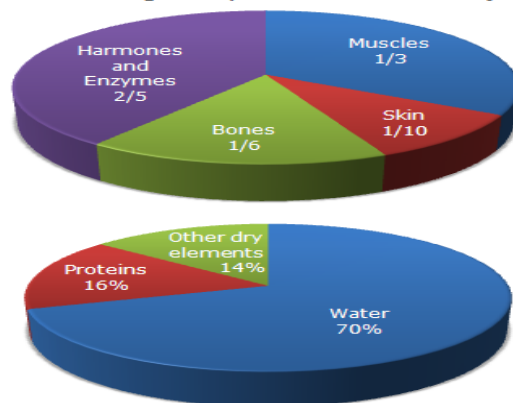

Study the following graph carefully and answer the questions given below:
Distribution of candidates who were enrolled for MBA entrance exam and the candidates (out of those enrolled) who passed the exam in different institutes:

- What percentage of candidates passed the Exam from institute T out of the total number of candidates enrolled from the same institute? → C
 A. 50% B. 62.5% C. 75% D. 80%
- Which institute has the highest percentage of candidates passed to the candidates enrolled? → B
 A. Q B. R C. V D. T
- The number of candidates passed from institutes S and P together exceeds the number of candidates enrolled from institutes T and R together by → C
 A. 228 B. 279 C. 399 D. 407
- What is the percentage of candidates passed to the candidates enrolled for institutes Q and R together? → B
 A. 68% B. 80% C. 74% D. 65%
- What is the ratio of candidates passed to the candidates enrolled from institute P? → C
 A. 9 : 11 B. 14 : 17 C. 6 : 11 D. 9 : 17

Pie Chart -11

Study the following pie-diagrams carefully and answer the questions given below it:
Percentage Composition of Human Body

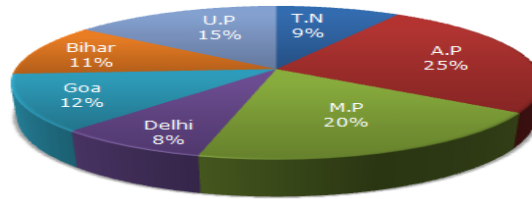

- What percent of the total weight of human body is equivalent to the weight of the proteins in skin in human body? → B
 A. 0.016 B. 1.6 C. 0.16 D. Data inadequate
- What will be the quantity of water in the body of a person weighing 50 kg? → B
 A. 20 kg B. 35 kg C. 41 kg D. 42.5 kg
- What is the ratio of the distribution of proteins in the muscles to that of the distribution of proteins in the bones? → C
 A. 1 : 18 B. 1 : 2 C. 2 : 1 D. 18 : 1
- To show the distribution of proteins and other dry elements in the human body, the arc of the circle should subtend at the centre an angle of: → C

- A. 54° B. 126° C. 108° D. 252°
- In the human body, what part is made of neither bones nor skin? → D
- A. $\frac{1}{40}$ B. $\frac{8}{30}$ C. $\frac{2}{5}$ D. None of these

Pie Chart -11

Study the following graph and the table and answer the questions given below.

Data of different states regarding population of states in the year 1998

Total population of the given States = 3276000.

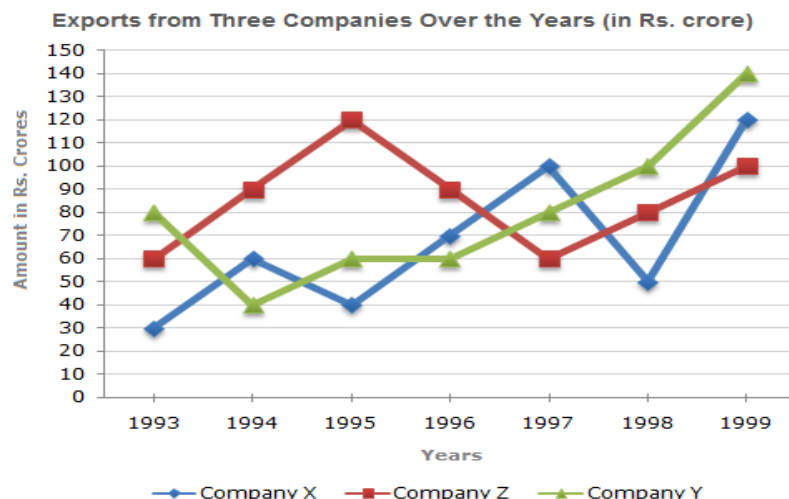

States	Sex and Literacy wise Population Ratio			
	Sex		Literacy	
	M	F	Literate	Illiterate
A.P.	5	3	2	7
M.P.	3	1	1	4
Delhi	2	3	2	1
Goa	3	5	3	2
Bihar	3	4	4	1
U.P.	3	2	7	2
T.N.	3	4	9	4

- What will be the percentage of total number of males in U.P., M.P. and Goa together to the total population of all the given states? → C
A. 25% B. 27.5% C. 28.5% D. 31.5%
- What was the total number of illiterate people in A.P. and M.P. in 1998? → D
A. 876040 B. 932170 C. 981550 D. 1161160
- What is the ratio of the number of females in T.N. to the number of females in Delhi? → D
A. 7 : 5 B. 9 : 7 C. 13 : 11 D. 15 : 14
- What was the number of males in U.P. in the year 1998? → B
A. 254650 B. 294840 C. 321470 D. 341200
- If in the year 1998, there was an increase of 10% in the population of U.P. and 12% in the population of M.P. compared to the previous year, then what was the ratio of populations of U.P. and M.P. in 1997? →
A. 42 : 55 B. 48 : 55 C. 7 : 11 D. 4 : 5

Sub-chapter 3 - Data Interpretation of Line Chart

Line Chart - 1

Study the following line graph and answer the questions.

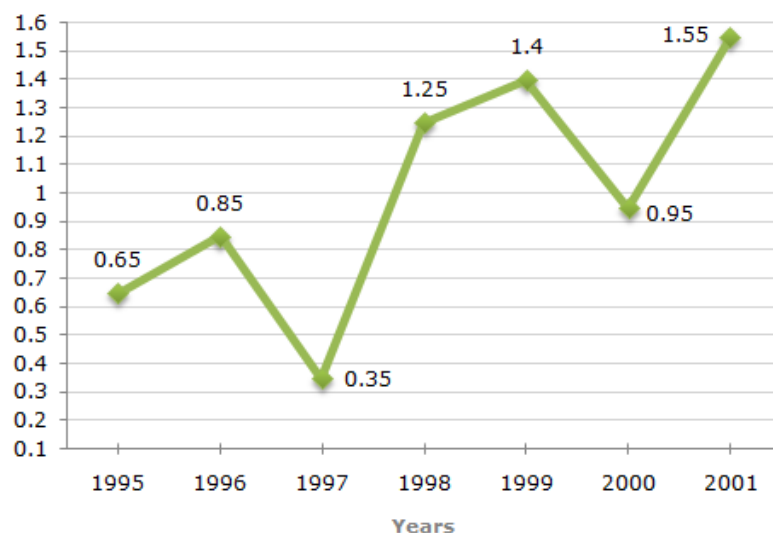

- For which of the following pairs of years the total exports from the three Companies together are equal? → D
A. 1995 and 1998 B. 1996 and 1998 C. 1997 and 1998 D. 1995 and 1996
- Average annual exports during the given period for Company Y is approximately what percent of the average annual exports for Company Z? → D
A. 87.12% B. 89.64% C. 91.21% D. 93.33%
- In which year was the difference between the exports from Companies X and Y the minimum? → C
A. 1994 B. 1995 C. 1996 D. 1997
- What was the difference between the average exports of the three Companies in 1993 and the average exports in 1998? → C
A. Rs. 15.33 crores B. Rs. 18.67 crores
C. Rs. 20 crores D. Rs. 22.17 crores
- In how many of the given years, were the exports from Company Z more than the average annual exports over the given years? → C
A. 2 B. 3 C. 4 D. 5

Line Chart - 2

The following line graph gives the ratio of the amounts of imports by a company to the amount of exports from that company over the period from 1995 to 2001.

Ratio of Value of Imports to Exports by a Company Over the Years.

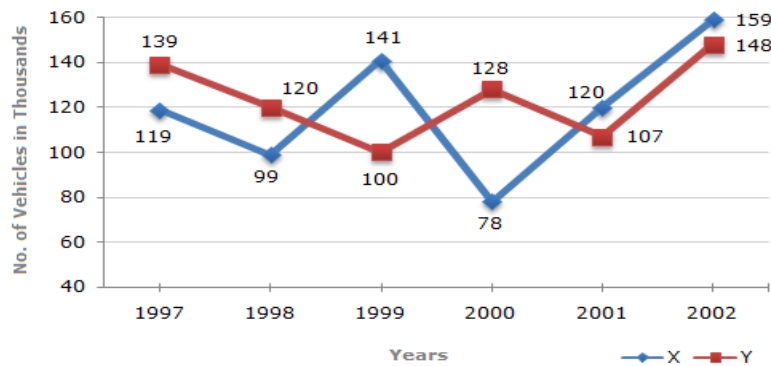

- If the imports in 1998 was Rs. 250 crores and the total exports in the years 1998 and 1999 together was Rs. 500 crores, then the imports in 1999 was ? → D
A. Rs. 250 crores B. Rs. 300 crores
C. Rs. 357 crores D. Rs. 420 crores
- The imports were minimum proportionate to the exports of the company in the year ? → C
A. 1995 B. 1996 C. 1997 D. 2000
- What was the percentage increase in imports from 1997 to 1998 ? → D
A. 72 B. 56 C. 28 D. Data inadequate
- If the imports of the company in 1996 was Rs. 272 crores, the exports from the company in 1996 was ? → B
A. Rs. 370 crores B. Rs. 320 crores C. Rs. 280 crores D. Rs. 275 crores
- In how many of the given years were the exports more than the imports ? → D
A. 1 B. 2 C. 3 D. 4

Line Chart - 3

Study the following line graph and answer the questions based on it.

Number of Vehicles Manufactured by Two companies over the Years (Number in Thousands)

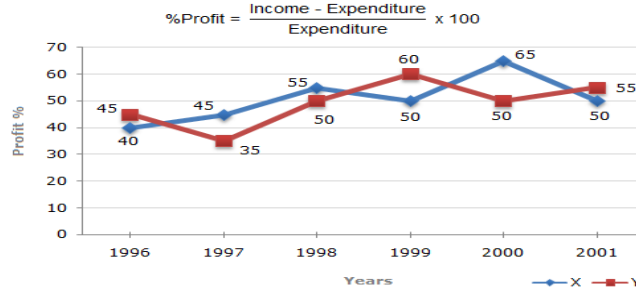

- What is the difference between the number of vehicles manufactured by Company Y in 2000 and 2001 ? → D
A. 50000 B. 42000 C. 33000 D. 21000
- What is the difference between the total productions of the two Companies in the given years ? → C
A. 19000 B. 22000 C. 26000 D. 28000
- What is the average numbers of vehicles manufactured by Company X over the given period ? (rounded off to nearest integer) → A
A. 119333 B. 113666 C. 112778 D. 111223
- In which of the following years, the difference between the productions of Companies X and Y was the maximum among the given years ? → D
A. 1997 B. 1998 C. 1999 D. 2000
- The production of Company Y in 2000 was approximately what percent of the production of Company X in the same year ? → B
A. 173 B. 164 C. 132 D. 97

Line Chart - 4

The following line graph gives the percent profit earned by two Companies X and Y during the period 1996-2001.

Percentage profit earned by Two Companies X and Y over the Given Years

- The incomes of two Companies X and Y in 2000 were in the ratio of 3:4 respectively. What was the respective ratio of their expenditures in 2000 ? → C
A. 7:22 B. 14:19 C. 15:22 D. 27:35
- If the expenditure of Company Y in 1997 was Rs. 220 crores, what was its income in 1997 ? → B
A. Rs. 312 crores B. Rs. 297 crores C. Rs. 283 crores D. Rs. 275 crores
- If the expenditures of Company X and Y in 1996 were equal and the total income of the two Companies in 1996 was Rs. 342 crores, what was the total profit of the two Companies together in 1996 ? (Profit = Income - Expenditure) → D
A. Rs. 240 crores B. Rs. 171 crores C. Rs. 120 crores D. Rs. 102 crores
- The expenditure of Company X in the year 1998 was Rs. 200 crores and the income of company X in 1998 was the same as its expenditure in 2001. The income of Company X in 2001 was ? → A
A. Rs. 465 crores B. Rs. 385 crores C. Rs. 335 crores D. Rs. 295 crores

- If the incomes of two Companies were equal in 1999, then what was the ratio of expenditure of Company X to that of Company Y in 1999 ? → D

A. 6:5

B. 5:6

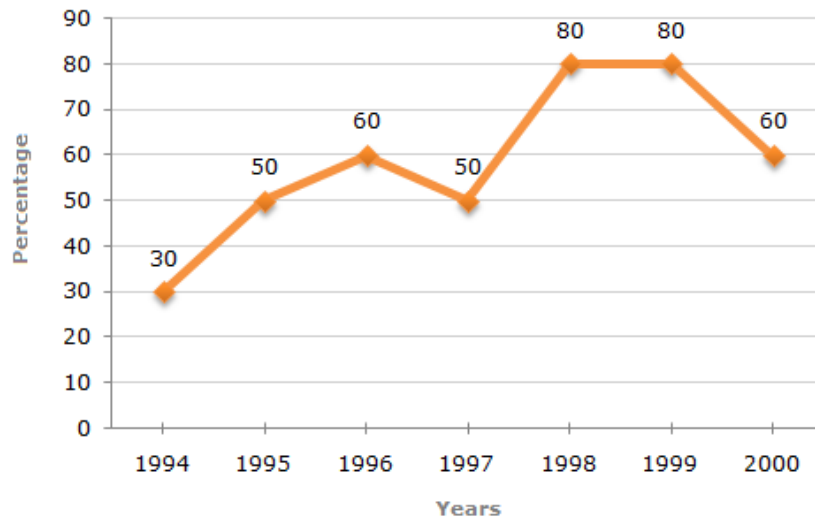

C. 11:6

D. 16:15

Line Chart - 5

The following line graph gives the percentage of the number of candidates who qualified an examination out of the total number of candidates who appeared for the examination over a period of seven years from 1994 to 2000.

Percentage of Candidates Qualified to Appeared in an Examination Over the Years

- The difference between the percentage of candidates qualified to appeared was maximum in which of the following pairs of years? → B
- In which pair of years was the number of candidates qualified, the same? → D
- If the number of candidates qualified in 1998 was 21200, what was the number of candidates appeared in 1998? → C
- If the total number of candidates appeared in 1996 and 1997 together was 47400, then the total number of candidates qualified in these two years together was? → D
- The total number of candidates qualified in 1999 and 2000 together was 33500 and the number of candidates appeared in 1999 was 26500. What was the number of candidates in 2000? → C

A. 1994 and 1995

B. 1997 and 1998

C. 1998 and 1999

D. 1999 and 2000

A. 1995 and 1997

B. 1995 and 2000

C. 1998 and 1999

D. Data inadequate

A. 32000

B. 28500

C. 26500

D. 25000

A. 34700

B. 32100

C. 31500

D. Data inadequate

A. 24500

B. 22000

C. 20500

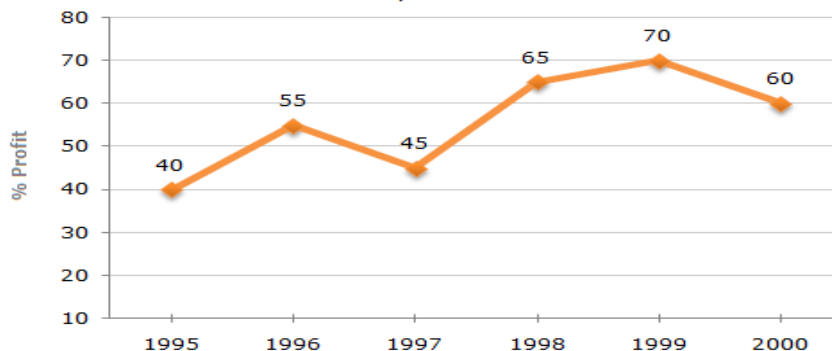

D. 19000

Line Chart - 6

The following line graph gives the annual percent profit earned by a Company during the period 1995 - 2000.

Percent Profit Earned by a Company Over the Years.

$$\% \text{Profit} = \frac{\text{Income} - \text{Expenditure}}{\text{Expenditure}} \times 100$$

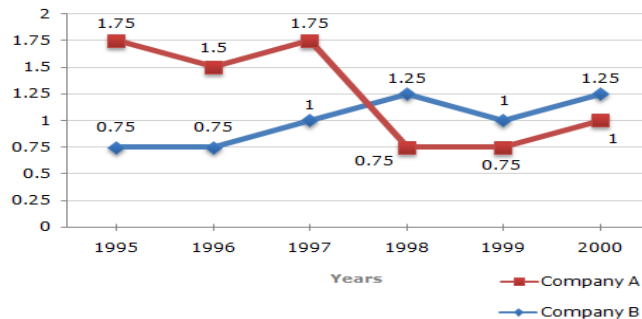

- If the expenditures in 1996 and 1999 are equal, then the approximate ratio of the income in 1996 and 1999 respectively is? → D
A. 1:1 B. 2:3 C. 13:14 D. 9:10
- If the income in 1998 was Rs. 264 crores, what was the expenditure in 1998? → C
A. Rs. 104 crores B. Rs. 145 crores C. Rs. 160 crores D. Rs. 185 crores
- In which year is the expenditure minimum? → D
A. 2000 B. 1997 C. 1996 D. Cannot be determined
- If the profit in 1999 was Rs. 4 crores, what was the profit in 2000? → D
A. Rs. 4.2 crores B. Rs. 6.6 crores C. Rs. 6.8 crores D. Cannot be determined
- What is the average profit earned for the given years? → B
A. $50(2/3)$ B. $55(5/6)$ C. $60(1/6)$ D. 335
- During which of the following year was the ratio of income to the expenditure the minimum? → B
A. 1996 B. 1997 C. 1998 D. 1999
- During which year the ratio of percentage profit earned to that in the previous year is the minimum? → B
A. 1996 B. 1997 C. 1998 D. 1999
- If the expenditure in 2000 is 25% more than expenditure in 1997, then the income in 1997 is what percent less than the income in 2000? → C
A. 22.5% B. 25% C. 27.5% D. 31.25%

Line Chart - 7

Answer the questions based on the given line graph.

Ratio of Exports to Imports (in terms of money in Rs. crores) of Two Companies Over the Years

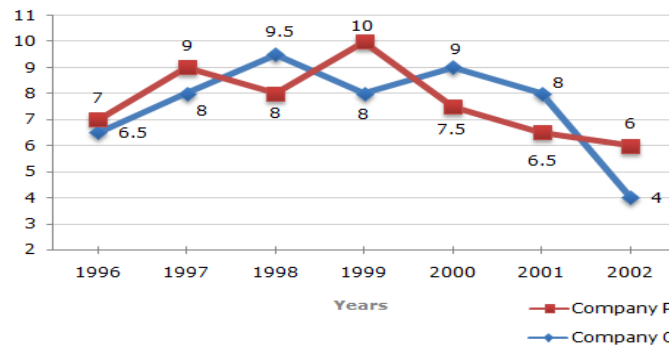

- In how many of the given years were the exports more than the imports for Company A? → B
A. 2 B. 3 C. 4 D. 5
- If the imports of Company A in 1997 were increased by 40 percent, what would be the ratio of exports to the increased imports? → B
A. 1.20 B. 1.25 C. 1.30 D. cannot be determined
- If the exports of Company A in 1998 were Rs. 237 crores, what was the amount of imports in that year? → D
A. Rs. 189.6 crores B. Rs. 243 crores C. Rs. 281 crores D. Rs. 316 crores
- In 1995, the export of Company A was double that of Company B. If the imports of Company A during the year was Rs. 180 crores, what was the approximate amount of imports of Company B during that year? → B
A. Rs. 190 crores B. Rs. 210 crores C. Rs. 225 crores D. Cannot be determined
- In which year(s) was the difference between imports and exports of Company B the maximum? → D
A. 2000 B. 1996 C. 1998 and 2000 D. Cannot be determined

Line Chart - 8

Two different finance companies declare fixed annual rate of interest on the amounts invested with them by investors. The rate of interest offered by these companies may differ from year to year depending on the variation in the economy of the country and the banks rate of interest. The annual rate of interest offered by the two Companies P and Q over the years are shown by the line graph provided below.

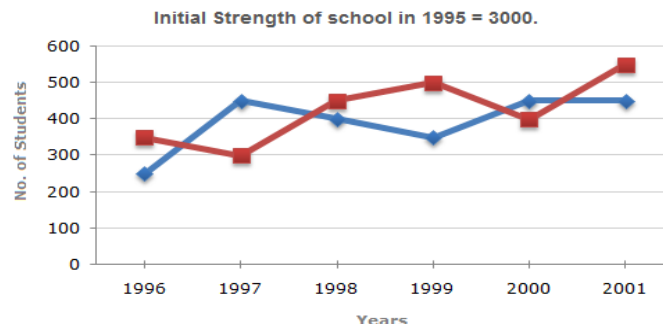

Annual Rate of Interest Offered by Two Finance Companies Over the Years.

- A sum of Rs. 4.75 lakhs was invested in Company Q in 1999 for one year. How much more interest would have been earned if the sum was invested in Company P? → D
A. Rs. 19,000 B. Rs. 14,250 C. Rs. 11,750 D. Rs. 9500
- If two different amounts in the ratio 8:9 are invested in Companies P and Q respectively in 2002, then the amounts received after one year as interests from Companies P and Q are respectively in the ratio? → D
A. 2:3 B. 3:4 C. 6:7 D. 4:3
- In 2000, a part of Rs. 30 lakhs was invested in Company P and the rest was invested in Company Q for one year. The total interest received was Rs. 2.43 lakhs. What was the amount invested in Company P? → D
A. Rs. 9 lakhs B. Rs. 11 lakhs C. Rs. 12 lakhs D. Rs. 18 lakhs
- An investor invested a sum of Rs. 12 lakhs in Company P in 1998. The total amount received after one year was re-invested in the same Company for one more year. The total appreciation received by the investor on his investment was? → C
A. Rs. 2,96,200 B. Rs. 2,42,200 C. Rs. 2,25,600 D. Rs. 2,16,000
- An investor invested Rs. 5 lakhs in Company Q in 1996. After one year, the entire amount along with the interest was transferred as investment to Company P in 1997 for one year. What amount will be received from Company P, by the investor? → B
A. Rs. 5,94,550 B. Rs. 5,80,425 C. Rs. 5,77,800 D. Rs. 5,77,500

Line Chart - 9

Study the following line graph which gives the number of students who joined and left the school in the beginning of year for six years, from 1996 to 2001.

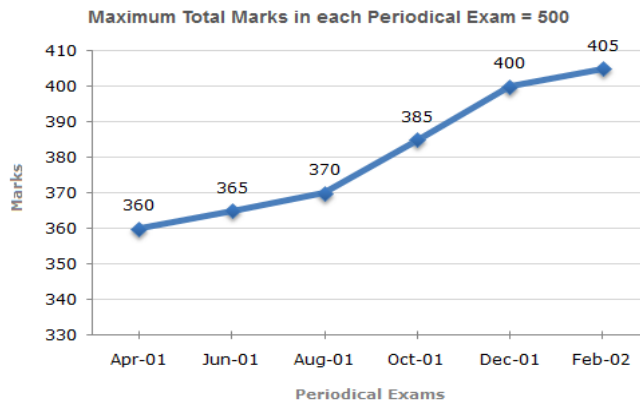

- The number of students studying in the school during 1999 was? → D
A. 2950 B. 3000 C. 3100 D. 3150
- For which year, the percentage rise/fall in the number of students who left the school compared to the previous year is maximum? → A
A. 1997 B. 1998 C. 1999 D. 2000
- The strength of school increased/decreased from 1997 to 1998 by approximately what percent? → B
A. 1.2% B. 1.7% C. 2.1% D. 2.4%

- The number of students studying in the school in 1998 was what percent of the number of students studying in the school in 2001? → B
A. 92.13% B. 93.75% C. 96.88% D. 97.25%
- The ratio of the least number of students who joined the school to the maximum number of students who left the school in any of the years during the given period is? → D
A. 7:9 B. 4:5 C. 3:4 D. 2:3
- During which of the following pairs of years, the strength of the school was same? → D
A. 1999 and 2001 B. 1998 and 2000 C. 1997 and 1998 D. 1996 and 2000
- Among the given years, the largest number of students joined the school in the year? → C
A. 1996 B. 1998 C. 2001 D. 2000

Line Chart - 10

In a school the periodical examination are held every second month. In a session during April 2001 - March 2002, a student of Class IX appeared for each of the periodical exams. The aggregate marks obtained by him in each periodical exam are represented in the line-graph given below.

Marks Obtained by student in Six Periodical Held in Every Two Months During the Year in the Session 2001 - 2002.

- In which periodical exams did the student obtain the highest percentage increase in marks over the previous periodical exams? → C
A. June, 01 B. August, 01 C. Oct, 01 D. Dec, 01
- The total number of marks obtained in Feb. 02 is what percent of the total marks obtained in April 01? → B
A. 110% B. 112.5% C. 115% D. 116.5%
- What is the percentage of marks obtained by the student in the periodical exams of August, 01 and Oct, 01 taken together? → B
A. 73.25% B. 75.5% C. 77% D. 78.75%
- What are the average marks obtained by the student in all the periodical exams during the last session? → C
A. 373 B. 379 C. 381 D. 385
- In which periodical exams there is a fall in percentage of marks as compared to the previous periodical exams? → A
A. None B. June, 01 C. Oct, 01 D. Feb, 02
